Cohen's Lottery and Exchange-Office.**Hoc signo Fortuna.**

BALTIMORE—THURSDAY, AUGUST 21, 1828.

Continuation of Great Success!

We have again to announce the success of adventurers at Cohen's Office, in the drawing of the Maryland STATE LOTTERY, No. 4, for 1828,—which took place yesterday afternoon agreeably to advertisement. The CAPITAL PRIZE of TEN THOUSAND DOLLARS, which came out to No. 1372 (*an Even number*) we divided and sold in Shares of One Half and Two Quarters.—The *Half* is owned in the State of *Ohio*, having been sent from Cohen's Office to the fortunate holder on the 8th inst.—*One Quarter* is also held by a distant adventurer residing in *Charleston, S. Carolina*.—The other *Quarter* is owned in *Baltimore*. The names of the holders we will mention as soon as we receive their permission. The 2,000 dollar prize came out to No. 8733, and is held in a whole ticket in this city—the other prizes were variously distributed.—As usual, the CASH is ready on presentation of the tickets.

Next Scheme draws 16th Sept.

On the next page, we present the next STATE LOTTERY, (No. 5, for 1828,) a small, but neat scheme—the tickets of low price and very little risk, being on the *Odd and Even System*. It is well calculated for the renewal of small prizes in the scheme which was drawn yesterday, as well as for new investments, the Capital Prize being of handsome amount, compared with the price of the tickets. The drawing will take place on Tuesday, the 16th September, under the superintendence of the Commissioners appointed by the Governor and Council. The list of the drawing will be published in this paper, and will be forwarded to our customers, gratis, as usual.

In our next Register

We intend to present the scheme of STATE LOTTERY, No. 6—it will be of much larger Capital than No. 5, and consequently more brilliant in its prizes.—The drawing will take place at such period as will enable our distant friends to avail themselves of the opportunity of obtaining the handsome Capitals which it will contain. The particulars will be given in our next.

The Official List of Prizes,

Drawn yesterday in the State Lottery, will be found on the 4th page of this day's Register.

Notice to Distant Adventurers.

Strangers and others are respectfully reminded, in order to prevent mistakes, that COHEN'S OFFICE in the City of Baltimore is at

No. 114, Market-street,

and in calling, sending or directing letters, they ought to be particular. We make this special notice in consequence of there being an Office in Baltimore of a name, in appearance on paper, somewhat similar—so much so that many mistakes have been made.

The sloop of war St. Louis was to have been launched on Saturday last at Washington.

LATEST FROM BRAZIL.

By the Ship *Constitution*, M'RAF, in forty-two days from Rio Janeiro, we have received intelligence to the 5th ultimo.

The Brazilian frigate *Imperatriz*, sailed from Rio on the 5th of July. In this vessel went Maria Gloria, aged 12 years, the young Queen of Portugal, on a visit to her grandfather the Emperor of Austria. The British line of battle ship *Ganges*, Admiral Otway, sailed in company with the *Imperatriz*, and was to accompany her to the Equator. Several Brazilian ships sailed in company also.

Reports were in circulation in Rio, that Buenos Ayres has concluded a peace with the Brazilians, but no certain information of that event had reached there when the C. sailed.

The U. S. ship *Macedonian*, Com. BIDDLE, and sloop of war *Boston*, Capt. HOFFMAN, were at Rio, 5th July, discharging their crews—their term of service having expired.

BALTIMORE AND OHIO RAIL ROAD.

We are gratified to learn, from a paragraph in the Gazette, that the line of the Rail-road as far as to Ellicott's Mills, has been put under contract. Some of the contractors are busily employed in the construction of houses for the accommodation of a large force—others are actively at work, and in the course of a few days, it is expected that this portion of the road will exhibit a very lively scene. The contracts have been taken, in general, at fair prices. This portion of the line will be pressed on with energy; and, in the mean time, every effort is making to effect the location westward, so as to enable the Directors to put under contract, early this fall, another division of the road of from fifteen to twenty miles.

We understand the proprietors of the Union Line of Steam Boats and Stages, between this city and Philadelphia have determined upon running a line upon the Chesapeake and Delaware Canal route. This arrangement will go into effect immediately on the completion of that great national work. From the long experience and enterprise of the gentlemen engaged in that concern we anticipate a good and efficient line.

Chesapeake and Ohio Canal.—Twenty miles of the canal have, says the National Intelligencer, been located, and are now ready, and will be let to undertakers lower, probably, than the estimates of the convention, or of the civil engineers, as the actual location is shorter than the estimate by five eighths of a mile. The expense of making this part of the canal, it is believed will be less by 75,000 dollars than the estimate which is before the public.

THE NAVY.—The Boston Gazette, of Saturday, contains an article in relation to this arm of the public defence, which cannot fail to be perused with interest. The American Navy consists of forty vessels of which there are seven 74's, or ships of the line; seven 44's or frigates of the first class; four of the second class, including the Fulton steam ship; twelve sloops of war; seven schooners, and other vessels. The 74's are the *Independence*, *Franklin*, *Washington*, *Columbus*, *Ohio*, *North-Carolina*, and *Delaware*—the Frigates are the *Constitution*, *United States*, *Guerriere*, *Java*, *Potomac*, *Brandywine*, and *Hudson*, *Congress*, *Constellation*, *Macedonian* and *Fulton*—the sloops of war are the *John Adams*, *Cyane*, *Hornet*, *Erie*, *Ontario*, *Peacock*, *Boston*, *Lexington*, *Vincennes*, *Warren*, *Natchez* and *Falmouth*—the schooners are, among others, the *Dolphin*, *Grampus*, *Porpoise*, *Shark*, *Fox*, *Alert* and *Sea-Gull*. At the present time, nineteen of the above are in ordinary, and twenty one in commission. In addition, five ships of the line, six frigates, and four sloops of war,

are now building, and in a state of forwardness. The *Constitution*, *United States* and *Constellation* frigates were launched in 1797, and are the oldest vessels in the Navy; the *Congress* and *John Adams* in 1799; the *Hornet* in 1803, from which time till 1813, an interval of ten years, no public vessel was built. The *Macedonian* frigate, and *Alert* sloop of war, captured in that year, have ever since remained in the navy. Of the vessels at sea, the *Delaware* 74, *Java* 44, *Ontario* 18, *Lexington* 18, and *Warren* 18, form a squadron in the Mediterranean, of which the former is the flag ship. The *Brandywine* 44, *Vincennes* 18, and *Dolphin* 18, are in the Pacific; the *Macedonian* 36, and *Boston* 18, on the coast of Brazil; the *Constellation* 36, the *Hornet* 18, *Erie* 18, *Natchez* 18, *Falmouth* 18, *Grampus* 12, and *Shark* 12, are in the West Indies.

The new sloop of war *FAIRFIELD*, Capt. Parker, has hauled out from the Navy Yard, and is to sail immediately for the Mediterranean.—The *Hudson*, frigate, is ready for sea, bound to Brazil. The *Erie* sloop of war, is fitting for the W. India station.—*N. Y. Merc. Adv.*

The Springs.—The Saratoga Sentinel, of August 12, says:—Nearly 1000 strangers arrived in this place during the past week; and the register now exhibits 500 more names than that of last year at the same date. Should the present warm weather continue, the town will doubtless remain crowded the present month.

Northern Lights.—The Aurora Borealis, made a splendid appearance, from 10 to 12 o'clock on Saturday night last.

N. Yk. Eng.

We mentioned yesterday, upon the authority of a letter from England, that Mr. Sparks had been denied further access to the British Colonial Office. His object in applying for access to the office was to collect documents and facts relating to American history, particularly such as might be of use to him in the publication of Washington's letters, a part of the plan of that publication being to insert notes illustrative and explanatory of the subjects of the letters; and it was apprehended that his exclusion from the Colonial Office, might deprive him of the means of collecting materials of essential importance in prosecuting his work. We understand from another quarter, however, that, though the late change of ministry has thrown some obstacles in his way, or rather deprived him of the facilities he had obtained through the influence of Mr. Huskison, still he is likely to obtain all the most important materials which the British archives can supply, for his proposed publication.—*Bost. Bulletin*.

Kite Coach.—At the Ascot heath races in England, attention was attracted by a novel exhibition, and which was no other than the famous Kite Coach, which drawn by two kites, travelled at a rapid pace, at the back of the royal stand. His Majesty left the front of the stand, in order to have a full view of it. On our return from the races (says a London paper) we had a better opportunity of witnessing the power of this extraordinary machine; an immense number of carriages were assembled about half a mile this side of Staines, and the Kite Coach starting with them, not only left them in the lurch and passed every thing on the road, but actually beat Mr. Sherman's Bull and Mouth Coach (a quick one) by half an hour, in the short distance between Staines and Smallberry Green, 8 miles.

Punning.—For this faculty, Mr. Finn has attained, in spite of himself, a degree of celebrity in this country, as great as that of my Lord Norbury in England. The following anecdote, which we find related in a paper from the interior is new, at least to us. Sitting at the table one day opposite Mr. John Everett, with a fine goose before them “Is not that a fine goose, Finn,” said E. “Truly,” said Finn, “it is as great a goose as I. Ever-ate.”

MODE OF DRAWING.—The numbers will be put into one wheel as usual—and in the other wheel will be put the prizes above the denomination of Two Dollars, and the drawing to progress in the usual manner. The 5,000 prizes of \$2 will be awarded to the odd or even numbers of the Lottery, (as the case may be) dependent on the drawing of the Capital Prize of Two Thousand Dollars—that is to say, if the 2,000 dollar prize should come out to an Odd Number, then every Odd Number in the Scheme will be entitled to Two Dollar Prize; if the 2,000 dollar prize should come out to an Even Number, then all the Even Numbers in the Scheme will be each entitled to a prize of 2 dollars.

Odd Numbers end with 1, 3, 5, 7, or 9.

Even Numbers end with 2, 4, 6, 8, or 0.

This mode of drawing not only enables the Commissioners to complete the whole Lottery in ONE DRAWING, but has the great advantage of distributing the small prizes regularly to every alternate number in the Scheme, so that the holder of two Tickets, or two Shares of Tickets, (one Odd and one Even Number,) will be certain of obtaining at least one prize, and in the same ratio for any greater quantity. A Ticket drawing a superior prize in this Scheme is not restricted from drawing an inferior one also.
